INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners,
Town of Stowe Electric Department
Stowe, Vermont

We have audited the accompanying financial statements of Town of Stowe Electric Department of Stowe, Vermont, as of and for the year ended June 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Town of Stowe Electric Department of Stowe, Vermont, as of June 30, 2020, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only SED and do not purport to, and do not present fairly the financial position of the Town of Stowe, Vermont, as of June 30, 2020 and 2019, the changes in its financial position and cash flows, where applicable, for the years then ended in the conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Management has omitted the management discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Stowe, Vermont - Electric Department (SED) is a municipally owned utility providing retail electric power to the residents of the Town of Stowe. SED is under the jurisdiction of the Federal Energy Regulatory Commission (FERC) and the Vermont Public Utility Commission with respect to their rates and accounting. For financial statement reporting purposes, the SED is presented on the accrual basis in accordance with the accounting requirements and ratemaking practices of the regulatory authority having jurisdiction.

The financial statements of SED have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. SED's significant accounting policies are described below.

Reporting Entity

SED is an enterprise fund of the Town of Stowe, Vermont. It is categorized as a separate proprietary fund and these financial statements are not intended to present fairly the financial position and results of its operations and the cash flows of the proprietary fund types of the Town of Stowe, Vermont. The primary criteria used in determining the separate nature of the SED is its special accounting and report practices required by various regulatory and statutory authorities.

Basis of Presentation

Enterprise funds are proprietary funds used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded regardless of the measurement focus applied.

Proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flow. All assets and liabilities (whether current or non-current) associated with their activities are reported. Proprietary fund equity is classified as net position.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the SED's enterprise fund are charges to customers for sales and service. SED also recognizes as operating revenue the portion of fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Assets, Liabilities and Net Position

Cash and Cash Equivalents

For purposes of the statement of cash flows, SED considers all highly liquid investments, including restricted assets, with a maturity of three months or less when purchased to be cash equivalents.

Accounts Receivable

SED reads and bills one-half of the meters on the 6th of each month and the remainder of the meters on the 21st of each month. SED does not provide an allowance for doubtful accounts, but accounts are written off as they are determined to be uncollectible. Any recoveries of accounts written off are netted against current write-offs.

Unbilled Revenue

The amount shown as unbilled revenue represents the amounts billed to customers in July for June energy usage.

Inventories

Inventories, composed of various parts used in the electric system, are stated at cost.

Utility Plant

The utility plant of SED is stated at cost. SED follows the policy of charging to operating expenses annual amounts of depreciation, which allocate the cost of these assets over their estimated useful lives on a straight-line basis for periods of 5 - 50 years. Repairs and maintenance are expensed as incurred.

Investments

SED recognizes income from its affiliates in which it has ownership interests. This ownership includes investment in common and preferred stock of Vermont Electric Power Company, Inc. and membership units of VT Transco, LLC. These investments are recorded at cost because they are not publicly traded and market values are not readily determinable.

Compensated Absences

It is SED's policy to permit employees to accumulate earned but unused paid time off pay benefits. Employees may, depending on level and length of service, be paid for various amounts of their total accrued leave upon termination or retirement. SED accrues a liability for leave hours that meet the criteria for payment at the eligible employees' current rates of pay plus retirement benefits and employment taxes. The accrual for compensated absences was \$203,768 and \$177,312 at June 30, 2020 and 2019, respectively.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Long-term Obligations

Long-term debt and other long-term obligations are reported as liabilities in SED's balance sheets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as "other non-current assets" and amortized over the term of the related debt.

Equity Classifications

Equity is classified as net position and displayed in three components:

- a. Net investment in Capital Assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments: or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that do not meet the definition of "restricted" or "Net investment in Capital Assets".

Deferred Inflows and Deferred Outflows of Resources

SED recognizes provisions of GASB 63, "Financial Reporting and Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position". This statement provides financial reporting guidance for deferred outflows and deferred inflows of resources.

Deferred outflow of resources- the current consumption of the net assets that is applicable to a future period.

Deferred inflows of resources- the current acquisition of net assets that is applicable to a future reporting period.

Net Position- the residual of assets, deferred outflows of resources, liabilities and deferred inflow of resources.

Revenue Recognition

Customer meters are read by SED on a monthly basis. Revenues are recorded in the accounting period during which the meters are read. Accordingly, the revenues related to energy delivered from the meter reading date to the end of the accounting period are not significant and are recorded in the following period.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date to the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Town of Stowe Electric Department
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2020

NOTE 2 CASH

As of June 30, 2020 and 2019, the carrying amount of SED's deposits with financial institutions was \$2,994,473 and \$3,677,284 and the bank balance was \$3,000,009 and \$3,846,216 respectively. The following table summarized the custodial credit risk coverage of the deposits:

	<u>2020</u>	<u>2019</u>
Federal Depository Insured	\$ 250,000	\$ 250,000
Collateralized	2,750,009	3,500,000
Off-set by Debt	<u>-</u>	<u>96,216</u>
	<u>\$ 3,000,009</u>	<u>\$ 3,846,216</u>

NOTE 3 CASH – RESTRICTED

During the year ended December 31, 2005 SED received \$750,000 from the Spruce Peak Realty Company in anticipation of the construction of a 115kV line. These funds may only be used for the costs of the new 115kV line. SED may spend the interest earned on these funds as they see fit

In May 2009, SED received a \$4,000,000 bond from Vermont Municipal Bond Bank for the purpose of funding infrastructure and exclusive facilities. Unspent bond proceeds and the interest earned are restricted and may only be used to pay down the bond.

In May 2018, SED received a \$500,000 bond from Union Bank from upgrades of capital projects related to the cross country ski center and circuits #6 & 7.

In December 2018, SED sold their portion of the Highgate converter. The proceeds from the sale are restricted to the fund future capital projects including the construction of the new office building.

Restricted cash balances were as follows at June 30,:

	<u>2020</u>	<u>2019</u>
2009 VMBB Bond Proceeds	\$ 401,231	\$ 398,954
Proceeds from sale of capital projects	606,719	1,341,725
2018 capital projects note	<u>243,008</u>	<u>300,800</u>
Total Restricted Cash	<u>\$ 1,250,958</u>	<u>\$ 2,041,479</u>

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 3 CASH – RESTRICTED (continued)

In 2009, Stowe Electric Department received dividends and paid interest as required under the Lamoille County settlement. Due to a delay in the facility going online, VELCO retained payments totaling \$658,818 in an interest-bearing escrow account. The escrowed funds are restricted to pay Stowe Electric Department’s specific facility expenses in the final year of the settlement. Total escrow funds, including interest of \$672,908 were used to pay specific facilities expenses during fiscal year 2019.

NOTE 4 INVESTMENTS

Investments which are privately traded are stated at cost and consisted of the following as of June 30,:

NOTE 9 PENSION PLAN

SED created a retirement plan called "Town of Stowe Electric Department 457 (b) Retirement Plan", an eligible deferred compensation plan for employee contributions under Section 457 (b) of the IRC for its employees and beneficiaries. SED also created the Stowe Electric Retirement Plan, a profit sharing plan, which allows the department to contribute a percentage of its revenues to each employees plan account.

Under the profit sharing plan, employees are eligible to participate in the plan after completion of 1 year of service based upon the date the employee was hired and requires approval of the Chief Executive Officer of the plan sponsor. SED has elected to include one Town of Stowe, VT employee who was a participant in the predecessor plan as part of the plan.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 9 PENSION PLAN (continued)

SED contracts with a third party administrator to administer the Profit Sharing and Deferred Compensation plans. SED Commissioners are also Plan Trustees. Under the agreement the third party administrator is responsible for employee eligibility determination, record keeping, reporting, and compliance with the plan requirements.

Once eligibility and participation requirements are met, the employee is eligible to receive an allocation of employer contributions based upon each employee's compensation up to a maximum of \$225,000 annual compensation.

Under the plan, employer contributions may be made to union employees at 10.6%, management at 11.6%, and General Manager at 15%, of annual compensation. All contributions are immediately vested at 100%. The plan allows all participants who had retirement account balances in another qualified plan to roll over those balances to the new plan.

Total payroll covered for the pension contributions for the fiscal year ended June 30, 2020 and 2019 was \$1,382,376 and \$1,311,676, respectively. SED's pension contributions for the fiscal years ended June 30, 2020 and 2019 totaled \$126,036 and \$128,763 respectively and the total fees relating to the pension plan for the years ended June 30, 2020 and 2019 were \$850 and \$800, respectively.

NOTE 10 RELATED PARTY TRANSACTIONS

SED contributed to the general fund in lieu of taxes a total of \$42,310 for the years ended June 30, 2020 and 2019.

SED provides administration and billing services for the Water and Sewer Funds of the Town of Stowe, VT. Annual compensation to SED by the Town of Stowe, VT for these services totaled \$16,000 for each fiscal year.

The Town of Stowe, VT maintains insurance policies on the property of the municipal utility and also worker's compensation coverage for the department's employees. The department reimburses the Town of Stowe, VT for its portion of allocated costs related to insurance coverage. Total amounts paid to the Town of Stowe, VT for insurance purposes totaled \$73,712 and \$70,680 for the fiscal year ended June 30, 2020 and 2019, respectively.

On March 2, 2016 SED entered into a lease agreement with the Town of Stowe, VT. SED is leasing land for use of the Solar Project. Total lease expense at June 30, 2020 and 2019 was \$11,481 and 13,709, respectively.

SED owed the Town of Stowe, VT \$160,659 and \$152,977 at June 30, 2020 and 2019, respectively.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 11 MAJOR CUSTOMER

The SED's largest customer represents approximately 14.8% and 11.6% of 2020 and 2019 operating revenue and, 5.9% and 7.5% of accounts receivable as of June 30, 2020 and 2019, respectively.

NOTE 12 DEFERRED CONTRIBUTIONS FOR FIXED ASSETS

On September 23, 2005, SED entered into an agreement with Spruce Peak Reality, LLC, in which Spruce Peak Reality, LLC committed to pay SED for a contribution of the transmission facility construction and update costs to ensure SED has the capacity available to reliably serve its Spruce Peak development project. The contribution term includes an initial payment of \$750,000 and 10 annual payments of \$135,000. The initial payment of \$750,000 is amortized over the 10 year term of the agreement. At June 30, 2020 there was \$- of deferred contributions for fixed assets remaining.

NOTE 13 REGULATORY PROCEEDINGS

On August 22, 2008 the Federal Energy Regulatory Commission issued an order resolving issues associated with the cost allocation between participating utilities related to construction of the 115kV Lamoille County Project. The order provides SED with a fixed cap on its share of the specific facility project cost, requires the department to purchase and hold for ten years \$18,700,500 of VT Transco, LLC equity, and eliminates the department from any risk on the dividends to be paid on the equity which are to be applied to pay the debt service on the loan incurred to purchase the equity. Dividends in excess of the debt service requirements on the equity loan will be contributed to the project cost. The order requires the equity to be repurchased from the department, at par, in ten years. The loan to purchase the equity will be a non-amortizing loan due in full in ten years and will be paid with the proceeds from the equity sale at that time. The fixed annual charge to the department for the specific facility cost will be \$1,100,000 for the ten-year period. On December 30, 2008, both the loan and the equity purchase took place and on December 28, 2018 the equity was purchased and the loan was paid in full.

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES

SED's energy and capacity requirements are provided through a variety of contract obligations.

In 2008, SED became a direct member of the ISO – New England power market. SED has also entered into a service contract with Energy New England, LLC to administer and execute power contracts with the ISO – New England power market as SED's agent.

A brief summary of the major power supply contracts as of June 30, 2020 held by SED is as follows:

Town of Stowe Electric Department
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2020

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES (continued)

Hydro Quebec Contract:

This contract began on November 1, 2012, for energy and renewable credits. The contract began with 218 MWs; Stowe's portions vary during different periods, as shown below in Table 1. The contract pricing will be flexible and competitive to the market price because it will follow the defined Energy Market index and the cost of power on the forward market. The pricing is based partly on market prices, partly on inflation, and carries limits on year-to-year price fluctuations. Given the greater degree of market price volatility exhibited since the original Hydro Quebec contract was agreed, this pricing approach should be beneficial to Stowe as the contract will be limited to how "out of market" it might become for both Hydro Quebec and Stowe. This is an important contract quality in the current market environment, and it reduces potential rate pressure to Stowe. In addition to the price flexibility, this will continue to provide very low carbon energy to Stowe, helping it maintain a market price based green energy procurement strategy.

Table 1: Contract based on 218 MW:

Schedule	Start Date	Final Delivery Date	Stowe Entitlement (MW)
Period 1	11/1/2012	10/31/2015	1.032
Period 2	11/1/2015	10/31/2016	2.884
Period 3	11/1/2016	10/31/2020	2.984
Period 4	11/1/2020	10/31/2030	2.984
Period 5	11/1/2030	10/31/2035	2.251
Period 6	11/1/2035	10/31/2038	0.399

Highgate has finished the increase of transfer capability. The scheduled was approved by the ISO-NE; the MW's increased to 255 MW, with this adjustment the contract shifted to the second option of bilateral amounts on November 2016. Below Table 2 is the new portion for Stowe.

Table 2: Contract Based on 255 MW

Schedule	Start Date	Final Delivery Date	Stowe Entitlement (MW)
Period 1	11/1/2012	10/31/2015	1.238
Period 2	11/1/2015	10/31/2016	2.890
Period 3	11/1/2016	10/31/2020	2.990
Period 4	11/1/2020	10/31/2030	2.990
Period 5	11/1/2030	10/31/2035	2.135
Period 6	11/1/2035	10/31/2038	0.483

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES (continued)

New York Power Authority:

The New York Power Authority (“NYPA”) provides power to the utilities in Vermont under two contracts. SED’s share of the first contract is a 9 kW entitlement to the Robert Moses Project (a.k.a St. Lawrence). Effective December 23, 2017 this contract was renewed to extend through April 30, 2032. This renewal did not negotiate for the Environmental Attributes, and therefor SED cannot claim St. Lawrence towards RES beginning on December 23, 2017. SED's share of the second contract, the Niagara Project, has been an average of 480 kW. Effective September 1, 2007, the Niagara contract was renewed through September 1, 2025 with an entitlement of 481kW. SED is able to use Niagara Environmental Attributes towards RES compliance.

VEPPI (Vermont Electric Power Producers, Inc.):

4.100 of the Vermont PUC. The power is generated by several small hydroelectric facilities. There were 19 VEPPI units, as of June 30, 2020, 18 have expired, leaving 1 remaining. VEPPI assigns the energy generated by these facilities using a load ratio basis that compares Stowe’s electric sales to other utilities in Vermont on an annual basis. The VEPPI contracts have varying maturities, with the last VEPPI contract scheduled to end in 2020. Stowe’s current pro rata share of the VEPPI production is 1.3616%, which started November 1, 2019 and will run through October 31, 2020. The prior percent which ran from November 1, 2018 through October 31, 2019 was 1.4072%%. The VEPPI contracts are priced with relatively high energy rates.

Ryegate:

Ryegate is a 20 MW wood-fired unit, that was once within the VEPPI 4.100 projects. The VEPPI contract expired on October 31, 2012. The utilities negotiated a 10-year contract for power through VEPP Inc. The contract is for both power and renewable energy credits. Stowe’s allocation for the November 1, 2019 through October 31, 2020 contract year is 1.4493%. This contract will terminate on November 1, 2022.

SPEED (Sustainable Prices Energy Enterprise Development):

SPEED Standard Offer is a program established under Vermont Public Service Board Rule 4.300. The program’s goal is to achieve renewable energy and long-term stably priced contacts. Vermont utilities will purchase power from the SPEED projects. These projects are behind the meter and each utility will have their percent share, (Stowe’s share for November 1, 2018 through October 31, 2019 was 1.5197% and decreased to 1.4849% for November 1, 2019 through December 31, 2020). Stowe receives a modest capacity credit, and renewable energy credits for these resources. The cost paid to the SPEED projects are set based on the generation type. The SPEED began in the fourth quarter of 2010.

In May of 2009, as the SPEED Program progressed and implemented modifications, it changed into the Standard Offer program. This change began a feed-in-tariff to encourage the development of SPEED resources by making contracts long term and at fixed prices to qualified renewable energy projects. By May of 2012, the Vermont Energy Act of 2012 expanded the program to 127.5 MW over a 10-year span with a new pricing mechanism for qualified projects. The 2017 RFP for the Standard Offer Program within the Public Utility Commission Docket No. 8817 contained avoided cost price caps.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES (continued)

Stony Brook:

SED has entered into a Power Sales Agreement with the Massachusetts Municipal Wholesale Electric Company (MMWEC) for 1.66% (approximately 5,832 kW) of MMWEC's Stony Brook Project, an operating fossil fuel plant, for life of the units' operation. MMWEC, a public corporation of Massachusetts, is a co-ordination and planning agency for the development of the bulk power supply requirements of its members and project participants. The Power Sales Agreement for the project requires each participant to pay its share of MMWEC's costs related to the project, which includes operation and maintenance, property taxes, administration, expenses and capital. Lastly, MMWEC collects an operating reserve to finance the project. This is to be paid into a reserve and contingency fund.

Stated in MMWEC's 2009 audited financials, the Stony Brook Intermediate Series A Bonds, where were paid in full as of July 1, 2008. This has helped reduce Stowe's fixed cost obligation for its entitlement.

McNeil Project:

The McNeil wood-fired generating facility is located in Burlington, Vermont. The facility has a normal generating capability of 50,000 kW and a maximum generating capability of 53,000 kW. SED's entitlement to McNeil is provided through an agreement with the Vermont Public Power Supply Authority (VPPSA), and is expected to be available through the life of the unit. SED expects the generation to be mostly composed of wood, but gas and oil can be used to fuel the unit if available and if pricing is appropriately set.

SED has agreements with VPPSA to purchase a portion of the power produced by the facility. SED is committed to an ownership share of 15.8%.

McNeil was retrofitted in 2008 to make it eligible to generate Connecticut Class I Renewable Energy Certificates (RECs).

McNeil's bonds were paid off in June 2015, fixed costs for the plant have decreased.

Brown Bear II Hydro (Old Miller Hydro Contract)

Stowe had signed a purchase power agreement for 2.613% of the Worumbo (Miller Hydro) Project. The contract states that Stowe will receive their percent of the Miller hydro output per month. The contract price is for energy to be delivered to the Maine Zone, and capacity to be settled at the Maine location. The PPA terminated on May 1, 2016.

The Miller Hydro was purchased by Brown Bear Hydro and a PPA was renegotiated beginning on June 1, 2016. It is the same 2.613% of unit, but it is only for energy and renewable energy credits going forward. This will terminate on May 31, 2021.

Brown Bear Hydro is a run of river unit that has an average annual production of 90,000 MWH per year, over the past 3 to 5 years. This resource should equate to roughly 3% of Stowe's energy. Stowe receives both energy and RECs.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES (continued)

Saddleback Ridge Wind Project

Stowe purchased 2.172% of the Saddleback Wind Project, a 33 MW project with a 20-year PPA. The project is located in Carthage, ME. This generation is roughly 3% of Stowe's load. The project will allow Stowe to buy energy, capacity, and RECs. The project went full Commercial on September 2015.

NextEra – Seabrook offtake

Beginning January 1, 2015 and going through December 31, 2034 Stowe will receive .16% (or a max of 2 MW), of around the clock, of the NextEra Seabrook Resource. This contract also provides Stowe with the same PPA percentage of capacity as well. The pricing of the product varies with the Gross Domestic Product-Implicit Price Deflator (GDP-IPD). This takes natural gas price volatility away from the contract price. Escalation is limited to between 1.6-4.9 % per year. The PPA will provide carbon-free generation that will help insulate Stowe from the potential for higher carbon prices in the future.

Stowe also receives the Emissions Free Energy Certificates ("EFECs").

Phase 1 Hydro – Quebec Interconnection:

SED has entered into contracts with Vermont Electric Power Company (VELCO) to participate in .09578% of Phase I portion of the Hydro-Quebec interconnection, a 450 KVHVD transmission line directly connecting the Hydro-Quebec electric system with the ISO-NE system at the Comerford Generating Station. Under these agreements, SED provided capital for the cost of construction through purchase of VELCO Class C preferred stock and will provide support for the operation of the line. SED is entitled to a portion of the benefits and has an obligation for a corresponding portion of the costs associated with Phase I.

On November 14, 2014 Stowe contracted with Green Mountain Power (GMP) for a transfer of use rights agreement. GMP is now the interconnection rights holder and pays SED for that right.

Beech Hill Solar – Nebraska Valley

Stowe has built a 1 MW AC ground mounted solar electric generation project. Estimated output is approximately 1,568 MWh per year. This is about 1-2% of Stowe's annual energy requirement. This project's large benefit is the ability to use the renewable energy credits towards Tier 2 of the Renewable Energy Standard. Other benefits are energy, capacity, and transmission due to the fact the generation is considered distributed generation, or behind the Stowe's meter. The project began operation in September 2016.

Town of Stowe Electric Department
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2020

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES (continued)

Market Contracts:

Stowe Electric's portfolio contains a market contract for the Mount Mansfield ski resort. Stowe has obtained a product which will follow the snow making load and will provide optimal supply flexibility for this load type.

Sources of Energy:

The percentages of energy (kWh) acquired for the year ended June 30, 2020, was as follows:

FY July 1, 2019 - June 30, 2020- Total KWh's by Resource							
Resource	Description	MWH	kWh's	% of Total	Fuel	Location	Termination Date
NYPA- Niagara	Block	3,718	3,717,623	5.2%	Hydro	4011	2025
NYPA- St. Lawrence	Block	73	72,628	0.1%	Hydro	4011	2032

TOTALS		<u>77,773</u>	<u>83,522,162</u>	<u>100%</u>			
Nebraska Valley (BTM)	Solar	1,292	1,292,000	1.7%	Solar	Behind the Meter Generation	Life of Unit
VEPPI Standard Offer BTM	PUC	1,631	1,630,598	2.2%	Vary	Behind the Meter Generation	

Future projects and State Renewable Energy Standard:

Solar Projects

Stowe is analyzing additional Solar projects built within either in Stowe, or a PPA for a solar projects generation. Stowe is addressing their Renewable Energy Standard Requirement (RES) by adding additional renewable energy and credits within their portfolio.

Hydro Project

Stowe is also reviewing the option of refurbishing the old Moscow Mill Hydro Unit. This project was destroyed in the flood of 2011. This project would allow SED to reduce their load, because it would be behind the meter, and would qualify for the RES requirement.

Battery Project

Stowe is also reviewing the technology of energy storage.

Town of Stowe Electric Department
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2020

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES (continued)

Renewable Portfolio and upcoming Renewable Energy Standard (RES):

In July 2015, Act 56 (H. 40) was established using the 2011 Vermont Comprehensive Energy Plan in order to detail the states goals and place direction on how utilities will reach these goals. The RES requires utilities to buy or retain renewable energy credits and energy transformation projects. Each year has a percentage of retail sales that must be covered. In lieu of renewable credits or transformation project a utility can meet their obligation by paying an alternative compliance payment, at rates set by the State. The compliance rates will be adjusted annually for inflation using CPI.

There are three tiers to the RES program:

- Tier I: Meet a 75% by 2032 total renewable energy requirement (55% in 2017)
 - Any class of tradeable renewable attributes that are delivered in New England qualify
 - Approved Unit generations that will qualify towards compliance are McNeil, Hydro Quebec bilateral, and NYPA.
 - 2017 the compliance for SED was 41,915, SED retired 41,914* RECs
 - *The one less REC was due to the St. Lawrence renewal that did not include Renewable Attributes.
- Tier II: Meet 10% of sales with distributed generation in 2032 (1% in 2017)
 - New Vermont based unit that is 5 MWs or less or renewable generation
 - 2017 the compliance for SED was 762 RECs, SED retired 762 RECs
- Tier III: Meet 10.66% of sales with "energy transformation projects" in 2032 with 2% in 2019 (Stowe does not have to comply with Tier III until 2019).
 - Generation or project that reduces fossil fuel consumed by their customers and emission of greenhouse gases qualifies for compliance (MW conversion will be determined by the Board)
- SED's 2019 100% Compliance is shown below.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 14 PURCHASE POWER CONTRACTS AND SERVICES (continued)

NOTE 15 DEFERRED GAIN ON HEDGE SALE

On March 1, 2011, SED refinanced their capital improvement note with KeyBank National Association. At the time of the refinance, the interest rate swap was terminated. As a result, SED received proceeds of \$239,136 which will be amortized over the remaining life of the note. Amortization at June 30, 2020 and 2019 was \$14,950 and \$29,969, respectively.

NOTE 16 RISKS & UNCERTAINTIES

As a result of the spread of the COVID-19 Coronavirus, economic uncertainties have arisen which are likely to negatively impact net income. Other financial impact could occur though such potential impact and the duration cannot be reasonably estimated at this time. Possible effects may include, but are not limited to, disruption to the Utility's customers and revenue, absenteeism in the Utility's labor workforce, unavailability of products and supplies used in operations, and decline in value of assets held by the Utility, including receivables and property and equipment.

Town of Stowe Electric Department
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE 17 SUBSEQUENT EVENTS

In accordance with professional accounting standards, the Electric Department, has evaluated subsequent events through September 28, 2020, which is the date the financial statements were available to be issued. All subsequent events requiring recognition as of June 30, 2020, have been included in the financial statements herein.

On October 31, 2019, SED obtained a \$1,500,000 line of credit with Union Bank with an interest rate of 1.45%, due October 31, 2020.

On January 1, 2020, SED obtained a \$3,825,000 Stand-by Irrevocable Letter of Credit with Union Bank, with an expiration date of 12/31/2020. As of June 30, 2020, there had been zero drawdowns.
