

## 2024 Net-Metering Interconnection Request

Please return this form to [interconnection@stoweelectric.com](mailto:interconnection@stoweelectric.com)

Submit the following documents after the system is built and ready for interconnection:

This application

1-line engineering diagram showing the as-built system and site plan

Battery Storage Information (if applicable)

By submitting this form, you agree the system installation and electrical work meet current National Electric Code (NEC), National Electrical Safety Code (NESC), ISO-NE inverter rules, SED interconnection guidelines, and Vermont PUC Rules 5.100 and 5.500 before commissioning and interconnection is completed.

Owner's Name	
Billing Address	
Phone	
Email	
SED Account Number	
Service/Installation Address	

CPG Number	
CPG Deemed Issued Date	
CPG Amendment petition number	

Mounting (Roof or Ground)	
Total System Capacity (kWac)	
PV Module Manufacturer and Model	
Number of Modules	
Power rating per module in DC watts	
Inverter(s) Manufacturer and Model	
Inverter Manufacturing Year	
Inverter(s) are IEEE 1547 compliant and UL 1741 Complaint	

Is there/will there be battery storage at this location? Yes \_\_\_\_\_. Size \_\_\_\_\_. No \_\_\_\_\_

Meter Connection	
Offset/bi-directional	
Direct Connect	

A \$215.00 meter installation fee will appear on your first net-metering bill.

Signature: \_\_\_\_\_ Date of Application: \_\_\_\_\_

Installer needs authorization from the Stowe Electric Customer to sign in their behalf.
