Blower door test performed with a maximum measured Air Changes per Hour (ACH) of less than 5 at 50 Pascals	

Terms and Conditions

This rebate from Stowe Electric Department is valid for qualifying ductless cold climate heat pumps purchased January 1, 2022 through December 31, 2022.

This is a rebate offered in addition to the point-of-sale rebate you received from Efficiency Vermont and Stowe Electric Department at the point of purchase of your cold climate heat pump.

Efficiency Vermont and the Vermont distribution utilities collaborate to encourage electrification projects that decarbonize our heating and cooling sector.

This rebate is limited to two condenser units per year per customer.

For more information: call Efficiency Vermont 1-888-921-5990 and <https://www.encyvermont.com/rebates/list/heat-pump-heating-cooling-system>.

Stowe Electric: 802-253-7215, rebates@stowelectric.com, or <https://www.stowelectric.com/programs/rebate-programs>.

See https://ashp.neep.org/#!/product_list/ for more information on qualifying products.

We will not endorse a manufacturer, product, system design, technology, or contractor. However, we encourage you to hire those contractors approved by Efficiency Vermont.

Customers eligible for total rebate incentives of \$600 or greater must complete a W-9 form and submit a copy to Stowe Electric.

You must send Stowe Electric a copy of the invoice you received from your contract installer showing the date of purchase and the date of installation.

If the model number and serial number are not provided on your invoice form, then please refer to the faceplate on the outdoor condenser unit(s) and send a picture of the faceplate attached to your rebate request.

We will contact you directly with additional information requests. Otherwise, please allow 30 a minimum of days from the date of receipt for us to mail your rebate check.

Stowe Electric reserves the right to modify or end this offer at any time.
