

## ELECTRIC DEPARTMENT

P.O. BOX 190  
STOWE, VERMONT 05672  
(802) 253-7215  
(802) 253-4555 FAX

State Laws require anyone who digs to notify utility companies before starting, and for good reason. Digging can be dangerous and costly without knowing where underground facilities are located.

DigSafe® System, Inc. does not mark underground utilities. DigSafe® is a call center only that notifies participating member companies (Vermont Gas, Electric, Telephone and Cable Television Utilities are required to join DigSafe® System) of proposed excavation projects.

Even though there is no charge for calling and notifying DigSafe® at “811” or (888-DIG-SAFE), DigSafe® does charge their member companies to be notified of DigSafe® requests.

As stated by DigSafe® System, member companies are not required to mark private facilities and only locating primary lines is free of charge.

Please note that the current charge for locating secondary, customer-owned lines is **\$60.00**.

Since we are the Stowe Electric Department, the color we use to identify underground facilities is **Red**.

Please do not hesitate to contact us at (802) 253-7215 if you have any further questions.
